Dear Mr. Masland, 11/24/91

I appreciate your letter of the 20th very much. Thanks. At this st age of my life such expressions of appreciation do mean much to me.

You are very fortunate to have been able to latch onto both the 26 volumes and Meagher's great book. She also did two versions of indexes, both published by Scarecrow Press if you can get a copy. The second includes the House Select Committee on Assassinations. Both are selective indexes but still quote helpful.

The committee also addressed the King assassination. This is not in that index.

Again thanks and best wishes in your almost-here retirement,

Sincerely,

Harold Weisberg
